

Dear Child Foundation friend,

We all need some good news in these days and I am excited to share with you some exciting developments.

First, the Child Foundation community is growing. We are excited to announce that we have partnered with an NGO in Tajikistan and have added 30 Tajik children to our family. Four children have already been sponsored so that their tuition fees will not burden their families. I invite you to read [Mehrona and Mehammadkhuja's stories](#).

Second, **your** donations have made a difference in numerous Iranian hospitals combating the coronavirus. Razi Health Foundation coordinated with medical providers in Iran and used donations, including funds from Child Foundation, to buy much needed equipment. The distribution report came in for a recent shipment of CPAP machines (used to facilitate patient breathing) and they were received by hospitals in the below areas.

Province	Cities	Number of machines

You can continue to help us support Iranians by helping us fight hunger in the country. Loss of employment and increased prices have resulted in empty bellies. Please donate generously to provide care packages to at-risk families. [Combat the coronavirus](#) and send [care packages](#) immediately.

You help make it happen!

Sincerely,
Navid Seyedali, President

Change *if I got back to school to when*

Mehammadkhuja is a 12-year old boy studying in sixth grade. He lives with his grandmother in Gafurov, Tajikistan. Unfortunately, Mehammadkhuja's father passed away. After his father's death, his mother remarried and left him in his grandmother's care. His grandmother, alone, takes care of him and several other young children. She is a pensioner with few resources and making ends meet is difficult for her.

Mehrona is a 16-year old student in 10th grade. She lives with her family in Kholmatov Jamoat, Tajikistan. She is currently in 10th grade. Sadly, her father passed away, and her mother is a teacher. The family lives with Mehrona's grandmother in her home. Her brother is in his first year of studies. Mehrona's family needs your support so that she can continue in school with her mind on her studies

Child Foundation's Legal Means of Aid to Iran

Child Foundation is proud to stand by the people of Iran despite how difficult it is to send aid. We are actively involved in all four of the below actions in Iran:

1. Under OFAC's General License E, Child Foundation can transfer funds in the case of a natural disaster such as the flood in Sistan and Baluchestan province.
2. Under OFAC's General License E, Child Foundation can transfer funds in the case of humanitarian aid such as the coronavirus outbreak.
3. Child Foundation's Iran Food Package Program for our over 6,000 students is needed more than ever and legal as importing food is not a sanctioned activity.
4. Child Foundation's efforts to secure medical supplies that are hard to come by inside of Iran are also legal as importing medical supplies is not a sanctioned activity.
